CEO's message

PAYDAY™ 3 launched and has reached recoup

On September 21st PAYDAY 3 was finally launched, a milestone for Starbreeze and a reason for the team to be proud and celebrate. Both interest in the game and initial sales exceeded our expectations, it was clear that many people have been waiting a long time to play PAYDAY 3. Unfortunately, it quickly became evident that the infrastructure on which the game rests was not holding up - this despite extensive internal and external tests carried out leading up to launch. The consequence is that sales after the period are somewhat lower, but we are convinced that what we have in store will increase sales over time. I myself have often said that "you are never better than your next game", and the events of September and October have given reason for extensive analysis, investigation and action. The team's focus is, and will continue to be, building PAYDAY 3 according to plan and repairing the short-term drop in confidence that the launch entailed. That PAYDAY 3, at September 30 based on preliminary total revenue, had recouped the investment Starbreeze

made in the game up until launch shows both the strength of the brand and the trust placed in us from our players. One of our most important tasks is to manage and nurture this trust in us. We have a clear vision for what PAYDAY 3 will be with our Games as a Service model, and we continue according to our plan where the goal is to always deliver maximum value for our players over time and results for Starbreeze.

RESULTS & POSITION

Starbreeze' net sales amounted to close to half a billion SEK during the quarter, of which PAYDAY 3 accounted for SEK 441 million. The revenue includes digital and physical sales on Steam, Xbox X|S, PlayStation 5, Epic Games Store, initial one-time revenue from platform owners as well as an accounting reversal of debt for game financing received. PAYDAY 2's sales amounted to SEK 51.6 million, which includes sales via Steam and the Epic Games Store as well non-recurring income from platform owners. In July, the debt Starbreeze had to an owner was amortized according to plan, and

later in the summer the convertible loan that had been issued to the same owner was also converted to a share price of SEK 1.45. All in all, this reduced Starbreeze' debt by SEK 380 million. We now have limited indebtedness, and SEK 313 million in cash at the end of the quarter.

PAYDAY 3

With the launch completed, PAYDAY 3 now enters its next phase; live service. This means that the team focuses on continued development of both new features as well as improvements requested by our players, and frequent deliveries of new content. We know the potential we have within our existing PAYDAY community and it is our job to deliver a product that attracts new players as well as our PAYDAY 2 players. In November, two new free heists will be launched for PAYDAY 3. These are two community favorites that have been refreshed and adapted to take advantage of the possibilities in PAYDAY 3. Along with them comes new first person animations, weapons, skins and a host of improvements

based on feedback from our players. Production on next year's content is already underway, with our already announced four DLCs being just a subset of what we plan to release.

PROJECT "BAXTER"

As we now scale up the development team for Baxter, primarily with employees who previously worked on the development of the base game PAYDAY 3, we ensure that we make the best use of our resources going forward. The pre-production work is proceeding according to plan, recruitment to strengthen the team with specific skills is constantly ongoing and we are of course looking forward to telling you more about the project together with our license partner. There is no intrinsic value in keeping things secret, as soon as the timing is right for us and our licensing partner, we look forward to telling – and showing more – of Project Baxter. It is, as previously mentioned, one iconic brand whose DNA is characterized by collaborative experiences and storytelling in an expansive world – in a completely new environment compared to PAYDAY but with the DNA that Starbreeze has excelled in over the past decade; cooperative multiplayer games.

THIRD PARTY PUBLISHING

During the quarter, there was a lot of focus, both internally and externally, on PAYDAY 3. Part of the publishing organization was simultaneously

working on several projects that, over the short and long term, will contribute to increasing the size and breadth of our community and creating more revenue streams for Starbreeze. At the end of October, we launched an exciting albeit smaller project together with our partner Torus Games; an island in the Epic Games game Fortnite. A perfect opportunity for Torus to realize its game concept and for Starbreeze to test the waters of the rapidly growing economy that Epic is building with Fortnite Islands. At the beginning of November, it was announced that Melbot Studios will develop "GodsTV", a multiplayer action game with an expected release in 2026. Last but not least, we successfully published RyseUp Studios' 1.0 version of Roboquest which in its launch week increased its daily active users (DAU) by over 1,000 percent to close to 100,000 users on Steam® and Xbox.

ORGANIZATION

Game development is very much an industry of human capital. As a company, it is our task to ensure that we have the right skills and that the organization is appropriate for the projects we are to deliver. During the quarter, the number of employees increased by 9 people, primarily new recruitment of specific skills for development of Project Baxter. Since the end of last year, we also have operations in the UK, which has proven

successful in further increasing our recruitment base and ability to attract top talent.

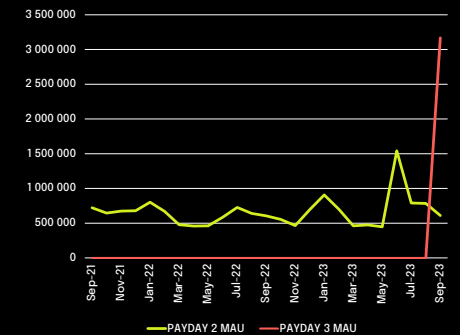

In accordance with our strategy, we look at our game releases over long cycles, where a supporting pillar is to consistently deliver added value to our customers and generate ongoing revenue. While we are of course pleased with the reception and sales PAYDAY 3 had before and during launch, and the fact that we recouped our investment in the game early on, we are also humbled by the fact that we have a lot of hard work ahead of us. To make existing players happy, to attract new players and to deliver on the vision for PAYDAY 3 in parallel with Project Baxter and our ventures into third-party publishing. There are no shortcuts in the gaming industry, only hard and consistent work.

Non-current liabilities

Non-current liabilities amounted to SEK 2.4 million (544.2). The convertible loan was converted to shares, SEK 215.1 million, and the related debt of SEK -147.5

Current lease liabilities amounted to SEK 10.2 million (15.9). Accrued expenses and deferred income at the end of the period was SEK 82.9 million (38.2).

Share capital

The share capital at the end of the period amounted to SEK 29,535,241 (14,492,185) divided into 1,476,762,040 shares (724,609,266), with 149,418,051 class A shares (166,321,768) and 1,327,343,989 class B shares (558,287,498).

Risks and uncertainties

To prepare interim reports and annual financial statements in accordance with generally accepted accounting principles, management must make assumptions and estimates that affect the assets, liabilities and income reported in the financial statements. Actual results may differ from these estimates.

The biggest risks and uncertainties are low revenues when launching games and project delays. These and other risks, such as copyright infringement, loss of key personnel, and exchange rate fluctuations, are described in the Starbreeze Annual Report 2022 in the management report on pages 59–60 and in Note 3.

Furthermore, the value of certain assets and liabilities is based on an expected outcome, which means that these items must be revalued on an ongoing basis and may therefore affect future earnings.

The short-term impact on earnings from exchange rate fluctuations may be positive or negative, depending on the current currency exposure from trade receivables, bank accounts and other assets and liabilities in foreign currency. In the long term, however, a falling US dollar exchange rate will have a negative impact on profit margins. As the Group has foreign subsidiaries, there is also translation exposure.

Parent company

During the quarter, the Group's operations were conducted in the Parent Company Starbreeze AB (publ) and the subsidiaries Starbreeze Production AB, Starbreeze Studio AB, Starbreeze Publishing AB, New Starbreeze Publishing PD IP AB, Starbreeze VR AB, Starbreeze USA Inc, Starbreeze LA Inc, Starbreeze IP LUX, Starbreeze IP LUX II Sarl, Starbreeze Barcelona SL, Starbreeze Paris SAS, New Starbreeze Studios AB, New Starbreeze Publishing AB, Enterspace AB, Starbreeze IP AB, and Starbreeze Studios UK Ltd. Enterspace International AB and Starbreeze Ventures AB were liquidated during the period.

The Parent Company's net sales during the quarter amounted to SEK 7.1 million (6.4) and for the period to SEK 24.1 million (21.5). Sales mainly relate to the allocation of management fees.

Profit before and after taxes was SEK -34.9 million (-9.5) for the quarter and SEK -17.6 million (-32.8) for the period. Write-down of intra-group receivables was made during the quarter to an amount of SEK 28.8 million.

At the end of the period, cash and cash equivalents amounted to SEK 263.6 million (5.8) and the Parent Company's equity was SEK 1,316.8 million (725.2).

The company's convertible loan was converted and related debt was amortized during the period and liabilities are therefore 0.

Related-party transactions

Other than salaries and benefits, and intra-Group transactions, there were no related-party transactions during the period.

Auditor's report

Starbreeze AB (publ) corp. reg. no. 556551-8932

Introduction

We have reviewed the condensed interim financial information (interim report) of Starbreeze AB (publ) as of 30 September 2023 and the nine-month period then ended. The board of directors and the CEO are responsible for the preparation and presentation of the interim financial information in accordance with IAS 34 and the Swedish Annual Accounts Act. Our responsibility is to express a conclusion on this interim report based on our review.

Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements ISRE 2410, Review of Interim Report Performed by the Independent Auditor of the Entity. A review consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing,

ISA, and other generally accepted auditing standards in Sweden. The procedures performed in a review do not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim report is not prepared, in all material respects, in accordance with IAS 34 and the Swedish Annual Accounts Act, regarding the Group, and with the Swedish Annual Accounts Act, regarding the Parent Company.

Notes

Note 1 Accounting and valuation principles

This interim report has been prepared in accordance with IAS 34, Interim Financial Reporting. The accounting principles and calculation methods are consistent with those applied in 2022.

The Parent Company's report has been prepared in accordance with the Swedish Annual Accounts Act and RFR 2 Accounting for Legal Entities and in accordance with the same accounting principles and calculation methods as the Annual Report 2022 (Note 2, pages 70-74).

No new or revised IFRS rules have come into force that are expected to have a significant impact on the Group. For all financial assets and liabilities, the carrying amount is a good approximation of fair value.

An updated principle relating to the depreciation of intangible assets was applied during the period. Finished proprietary game development is depreciated in accordance with the principle of degressive depreciation, i.e. the amount of depreciation decreases over the useful life. Intangible assets with a determinable useful life are depreciated from the date on which they are available for use. The estimated useful life for proprietary game development is five years. Depreciation is performed at 2/3 in year 1, 33% in month 1 and 33% in months 2-12, 15% in year 2 and 6% in each of years 3-5.

Note 2 Pledged assets

In March 2021, Starbreeze entered into a co-publishing agreement with Plaion regarding PAYDAY 3. The agreement covers both product development and marketing of PAYDAY 3 as well as the continued development and marketing of the game according to the Starbreeze Games as a Service model. All development of the game is done by Starbreeze, which owns the brand and all other rights associated with the brand, and Plaion will distribute and actively assist in promoting the game and managing local communities. In order to hedge investments made by Plaion under the agreement, all shares in Starbreeze's wholly-owned subsidiary, New Starbreeze Publishing PD IP AB, have been pledged in favor of Plaion.
